

Day 1 - Friday, 6 November

TIME	ID ABSTRACT	SESSION	PANELISTS	TYPE OF ABSTRACT
08:30	73	Island secrets: innovative surgeries from the tropics	Erika Jean Salvame	Course
09:15	544	Portable electroretinography in retina practice: from functional biomarkers to everyday clinical decisions using reteval	Hussein Almuhtaseb	Course
		THE IMAGING WORLD: Short communications Moderators: Adel Al-Akeely, Jayant Guha		
10:00	174	Congenital hypertrophy of the retinal pigment epithelium: clinical spectrum from a retrospective fundus photography cohort	Sashwanthi Mohan	Short communication / Free Paper
10:03	72	Quantitative OCT imaging biomarkers predict irreversible posterior visual pathway damage after parachiasmal mass resection: a single-case imaging analysis	Ahmet Melih Oncirak	Short communication / Free Paper
10:06	98	Diagnostic accuracy of computed tomography for detection of post-laminar optic nerve invasion in patients with retinoblastoma: a systematic review and meta-analysis	João Pedro Lima	Short communication / Free Paper
10:09	252	When genetics mislead - fundus albipunctatus-like retinopathy in hypovitaminosis a related optic neuropathy with skull hyperostosis	Adam Chmiel	Short communication / Free Paper
10:12		DISCUSSION		
10:20	317	Timing-dependent value of ultra-widefield OCT-A en face imaging in acute combined retinal artery-vein occlusion	Ilaria Contin	Short communication / Free Paper
10:23	433	Relationship between the anterior and posterior vitreous membrane in highly myopic eyes	Agnes Elekes	Short communication / Free Paper
10:26	507	Short-term modulation of retinal microcirculation by cocoa flavonoids assessed with OCT-angiography	Radina Kirkova	Short communication / Free Paper
10:29	150	OCTA Evaluation of optic disc and choriocapillaris perfusion following subconjunctival botulinum neurotoxin a versus triamcinolone acetonide injection for thyroid eye disease-related upper eyelid retraction	Emine Betul Akbas Ozyurek	Short communication / Free Paper
10:32		DISCUSSION		
10:40		COFFE BREAK		
11:00		How to start pediatric retina surgery	Şengül Özdek	Course
		Examination UGA before surgery	Baran Özdemir	
		Main anatomical & philosophical differences from adult VRS	Nimesh Patel	
		Sclerotomy construction	Subhadra Jalali	
		Management of posterior hyaloid	Şengül Özdek	
		Management of pediatric TRD	Fanny Nerinckx	
		Pediatric RRD management	Shunji Kusaka	
		Concerns during postop follow up	Susana Teixeira	
		Discussion		
		PEDIATRIC RETINA & ROP: Short communications Moderators: Subhadra Jalali, Ahmed Habib		
12:30	173	Evaluation of perfusional changes in the retinal vasculature of children with acute pancreatitis	Ozdemir Ozdemir	Short communication / Free Paper

12:33	225	Does retinopathy of prematurity leave a long-term mark beyond the macula? An OCT angiography evaluation	Ayse Ipek Akyuz Unsal	Short communication / Free Paper
12:36	292	Long-term ocular biometry macular anatomy and microvascular characteristics in eyes with a history of retinopathy of prematurity: a comparative study of laser-treated, spontaneously regressed, and control eyes	Saurabh Verma	Short communication / Free Paper
12:39	322	Corneal and anterior segment characteristics in laser-treated and spontaneously regressed retinopathy of prematurity	Serra Yilmaz	Short communication / Free Paper
12:42	125	The silent fight: a ten-year journey against retinopathy of prematurity in a rural private eye care setting in india.	Rajiv Gandhi	Short communication / Free Paper
12:45		DISCUSSION		
12:55	319	Clinical profile and outcomes of eyes with retinopathy of prematurity requiring >1 intravitreal anti-VEGF	Komal Agarwal	Short communication / Free Paper
12:58	397	Anterior hyaloidal fibrovascular proliferation in ROP: clinical presentation and treatment outcomes	Subhadra Jalali	Short communication / Free Paper
13:01	1	Planned sequential anti-VEGF and laser combination therapy for aggressive posterior retinopathy of prematurity: a strategy to overcome high recurrence rates	Ahmet Melih Öncirak	Case Presentation
13:03	369	Disc-overriding retinal folds in stage 4 ROP	Ahmed Habib	Case Presentation
13:05	472	Clinical features of enhanced s-cone syndrome: pediatric-onset case series	Benay Karabulut	Short communication / Free Paper
13:08	487	Bilateral lens-sparing vitrectomy for advanced ROP: two different complications, one anatomical outcome	Alexandra Helen Flores Leon	Case Presentation
13:10		DISCUSSION		
13:22		LUNCH		
		PEDIATRIC RETINA & ROP PART II Moderators: Ahmed El Shafei, Jayant Guha		
14:22	482	Evaluation of anti-VEGF treatment outcomes in retinopathy of prematurity using artificial intelligence-based quantitative analysis on ultra-widefield fundus imaging	Ali Gökoglu	Oral Presentation
14:27	74	Deep learning in the prediction of retinopathy of prematurity requiring treatment	Esay Kiran Yenice	Oral Presentation
14:32	117	Rhegmatogenous retinal detachment in buphthalmic eyes: clinical characteristics, surgical complexity, and prognostic factors	Merve Nur Sahin	Oral Presentation
14:37	286	Clinical impact and diagnostic patterns of ultra-widefield fluorescein angiography in infants and non-cooperative children for pediatric retinal diseases	Rasid Alkan	Oral Presentation
14:42		DISCUSSION		
14:50	445	When microcephaly meets retinal degeneration: unmasking kif11-associated chorioretinopathy in a child	Erika Alejandra Hernández-Lizárraga	Case Presentation
14:52	136	Tenon a surgical savior (ROP stage4 a complicated to RD)	Ahmed El Shafei	Case Presentation
14:54	276	Purtscher-like retinopathy as the first manifestation of systemic lupus erythematosus - a case report	Marta Pereira	Case Presentation
14:56		DISCUSSION		
15:02		COFFEE BREAK		
15:22		Macular Buckle Course	Barbara Parolini	Course

		Introduction to the course - Indications & latest results of macular buckle surgery	Barbara Parolini	
		MTM might resolve spontaneously but	Gabriel Li	
		MTM relapse after vitrectomy	Gabriel Li	
		The Malaysian experience	Wilson Wong	
		The Samarcanda experience	Sanat Fayzullov	
		Latest results on the use of macular buckle for atrophic maculopathy	Barbara Parolini	
		Discussion		
16:22	586	Advanced Strategies for Complex Retinal Detachment & PVR	Jayant S. Guha	Course
		Congenital X-linked retinoschisis, surgical management & outcomes	Hassan Mortada	
		Managing PVR	Barbara Parolini	
		Simplifying Retinal Detachment Repair: A Less-Is-More Strategy	Ahmed Sallam	
		Surgical tips on treating True Giant Tears	Athanasios Nikolakopoulos	
		RD with Coloboma	Deependra Vikram Singh / Abdullah Alqahtani	
		Discussion		
17:07	135	Proliferative vitreoretinopathy in retinal detachment	Sherif Shaarawy	Course
		MACULAR SURGERY: Short communications Moderators: Ewais Wael, Susana Teixeira		
17:52	297	Management of macular hole associated with retinal vasoproliferative tumor	Vinodh Chandrasekaran	Short communication / Free Paper
17:55	344	Functional and anatomical outcome of vitrectomy combined with subretinal tissue plasminogen activator injection and partial air tamponade in two cases of macular subretinal hemorrhage	Marco Celega	Short communication / Free Paper
17:58	362	Surgical outcomes for idiopathic macular holes: morphological and visual acuity predictive factors	Marta Pereira	Short communication / Free Paper
18:01		DISCUSSION		
18:07	504	Longitudinal assessment of peripapillary microvascular changes after intraoperative posterior hyaloid separation compared with spontaneous preoperative posterior vitreous detachment	Muhammed Ali Çalbay	Short communication / Free Paper
18:10	488	Premacular sub-ILM hemorrhage initially presenting as dense vitreous hemorrhage	Madina Farziyeva	Case Presentation
18:12	132	Association of serum vitamin d levels with the presence and severity of epiretinal membrane	Serife Ciloglu Hayat	Short communication / Free Paper
18:15	410	Microvascular remodeling following internal limiting membrane peeling for idiopathic epiretinal membrane: an OCT angiography study	Deniz Selen Yilmaz	Short communication / Free Paper
18:18		DISCUSSION		
18:26	289	Preoperative predictors of surgical failure after vitrectomy for myopic traction maculopathy	Shravanthi Nagaraj	Short communication / Free Paper
18:29	400	Autologous retinal transplantation: a new modification to the technique	Stergios Ntikos	Case Presentation
18:32	371	Tackling tough ERM and ILM peel	Neeraj Sanduja	Case Presentation
18:35		DISCUSSION		
18:41		END OF DAY ONE		

Day 2 - Saturday, 7 November

08:30	39	Challenging scenarios in ocular trauma: from anterior segment damage to posterior segment reconstruction	Levent Karabaş	Course
		Introduction	Levent Karabaş	
		Vitreoretinal Surgery After Ocular Trauma: Which Case, When and How?	Işıl Özsoy Saygın	
		Unusual Intraocular Foreign Bodies: Challenges and Management	Ecem Önder Tokuç	
		Chorioretinectomy in Ocular Trauma: Indications and Techniques	Nihat Sayın	
		Traumatic Pupillary Paralysis and Iris Defects: Pupiloplasty and Surgical Solutions	Berna Özkan	
		Discussion		
09:15	387	When help hurts: iatrogenic retinal problems	Banu Turgut Ozturk	Course
		SURGICAL TIPS & TRICKS / COMPLICATIONS: Short communications Moderators: Nimesh Patel, Yasin Şakir Göker		
10:00	338	Uveal effusion associated with treacher-collins syndrome- surgical approach	Katarzyna Chwiejczak	Short communication / Free Paper
10:03	221	Intravitreal tissue plasminogen activator for the treatment of preretinal hemorrhage under silicone oil following surgery for diabetic tractional retinal detachment	Sema Tamer Kaderli	Short communication / Free Paper
10:06	558	Surgical interventions with pars plana vitrectomy for acute retinal artery occlusion: a systematic review and proportion meta-analysis	Marco Anastasi	Short communication / Free Paper
10:09	552	Fluocinolone acetonide scleral-sutured implant	Francesca Tomatis	Case Presentation
10:11	46	Spontaneous massive suprachoroidal, subretinal and intravitreal haemorrhage in a patient with AMD who is using factor xa inhibitor	Yasin Sakir Goker	Case Presentation
10:13		DISCUSSION		
10:23	432	Severe open-globe injury following bull horn trauma: a case report	Asma Benslama	Short communication / Free Paper
10:26	171	Explantation and exchange of opacified Carlevale IOL following vitrectomy and gas tamponade	Thomas Papathomas	Short communication / Free Paper
10:29	526	Endpoint management laser for macular pathologies: early clinical experience in central serous retinopathy and diabetic macular edema	Hussein Almuhtaseb	Short communication / Free Paper
10:32	509	Practical intraoperative pearls in vitreoretinal surgery: a video-based compilation to enhance efficiency and outcomes	Ambikesh Pandey	Oral Presentation
10:37	16	From near blindness to sight	Akash Choudhary	Case Presentation
10:40		DISCUSSION		
10:50		COFFE BREAK		
11:10	195	Emerging trends in vitreoretinal surgery (advanced course)	Murat Öncel	Course
		Secondary IOL Implantation in the Absence of Capsular Support	Matteo Forlini	
		Current Approaches to Complex Retinal Detachment with PVR	Murat Öncel	
		Suprachoroidal visco buckle	Stratos Gotzaridis	
		Born to Blur-The lifetime Story of Myopia	Levent Akduman	

		Surgical Management of Diabetic Retinopathy	Özgür Artunay	
		Discussion		
11:55	718	Segmental buckling in the era of pars plana vitrectomy	Ahmed Sallam	Course
12:40		LUNCH		
13:49	428	Retinectomy in complex retinal detachment surgery: why, when and how?	Walid Zbiba	Course
		RETINAL DETACHMENT & PVR: Short communications - PART I Moderators: Fanny Nerinckxs, Armin Wolf		
14:34	335	Delayed giant retinal tear following successful pneumatic retinopexy despite extensive peripheral laser retinopexy	Dogukan Yaman	Case Presentation
14:36	38	Very late rhegmatogenous retinal detachment after intraocular foreign body removal: valsalva-induced breakdown of laser barricade	Selin Meydan	Case Presentation
14:39	300	Dealing with trauma	Konstantinos Ananikas	Case Presentation
14:42	106	Uveitis masquerading chronic rhegmatogenous retinal detachment in a challenging case	Esma Altuntas Önen	Case Presentation
14:45	412	Staged vitreoretinal surgery for schisis-detachment in a sole seeing eye	Filip Brazda	Case Presentation
14:48	260	Surgical management of subretinal bands in complex retinal detachment: a case series	Ozge Saritas	Case Presentation
14:51		DISCUSSION		
15:03		COFFE BREAK		
		RETINAL DETACHMENT & PVR: Short communications - PART II Moderators: Nur Acar Göçgil, Aurora Pecaku		
15:33	23	Marginal outer retinal ridge following rhegmatogenous retinal detachment repair: a novel biomarker of retinal displacement	Koby Brosh	Short communication / Free Paper
15:36	123	Primary versus secondary scleral buckling in rhegmatogenous retinal detachment repair: a narrative review of anatomical and functional outcomes stratified by lens status	Hamad Hejazi	Short communication / Free Paper
15:39	250	Ocular hypertension after silicone oil removal: a risk factor analysis	Mario Galasso	Short communication / Free Paper
15:42	320	Retinal detachment associated with intraocular cysticercosis: a surgical success and a diagnostic challenge	Shailendra Kumar Verma	Short communication / Free Paper
15:45	354	Buckling the odds- a novel approach to re-detachment under silicone oil in a young phakic eye	Rao B S Siddhartha	Short communication / Free Paper
15:48		DISCUSSION		
15:58	359	Natural peeling after buckling: spontaneous resolution of epiretinal membrane following scleral buckling for traumatic retinal detachment	Devashree Mktan	Short communication / Free Paper
16:01	379	Both eyes, one emergency: "a case series of simultaneous bilateral giant retinal tears and staged surgical strategy	Reha Vijay	Short communication / Free Paper
16:04	435	Reverse u tear, an unusual entity, an important association	Maninee Purohit	Short communication / Free Paper
16:07	436	Suprachoroidal viscopexy for RRD: two-year safety and efficacy outcomes	Aurora Pecaku	Short communication / Free Paper

16:10	709	The impact of draining retinotomy on postoperative retinal translocation following vitrectomy for rhegmatogenous retinal detachment	Zoi Drakou	short communication / free paper /oral
16:13		DISCUSSION		
		UVEITIS / ENDOPHTHALMITIS Moderators: Ihab Saad Othman, Sibel Kadayıfçılar		
16:23	330	Vitrectomy for toxoplasmosis foveal scar remodeling	Eleonora Lavaque	Oral Presentation
16:28	51	Time-dependent variation in uveitis flare risk during pregnancy and postpartum: a propensity-matched real-world analysis	Mai Alhelaly	Oral Presentation
16:33	97	When the eye becomes a host: vitrectomy for intraocular parasitic infestation	Ensherah Dra	Oral Presentation
16:38	321	Managing post operative and traumatic endophthalmitis via anterior segment approach	Anum Haneef	Oral Presentation
16:43	383	Correlation of features of serpiginous like choroiditis on OCT angiography with ICG angiography	Rakesh Juneja	Oral Presentation
16:48		DISCUSSION		
		UVEITIS / ENDOPHTHALMITIS: Short communications Moderators: Sibel Kadayıfçılar, Vaibhav Sethi		
16:58	516	Thoracic CT-derived I2 muscle metrics in infectious and non-infectious uveitis	Fatih Arpacı	Short communication / Free Paper
17:01	419	Bilateral central retinal artery occlusion revealing a systemic lupus erythematosus in a male patient	Hamza Krifa	Short communication / Free Paper
17:04	547	Retinal and choroidal alterations in ocular and non-ocular behçet's disease: comparison with healthy controls	Melike Balıkoglu-Yilmaz	Short communication / Free Paper
17:07	217	Macular dislocation after early vitrectomy for endophthalmitis	Dario Furgiuele	Case Presentation
17:10	14	Rescue vitrectomy with controlled intraocular diluted povidone-iodine in antibiotic-refractory endophthalmitis	Omer Abdullah	Case Presentation
17:13		DISCUSSION		
17:23	84	Endophthalmitis vitrectomy: complete vitreous clearance, posterior hyaloid detachment and povidone-iodine infusion	Cemal Ozsaygılı	Case Presentation
17:26	373	Multiple sclerosis in a young male patient presenting with uveitis	Nese Cetin Dogan	Case Presentation
17:29	529	On the trail of toxoplasmosis	Ivan Tanev	Case Presentation
17:32	262	Beyond inflammation: infectious retinal and optic neuropathies masquerading as autoimmune disease	Lilyan León Nieto	Case Presentation
17:35	273	Clinical outcomes of intravitreal methotrexate in tattoo-associated uveitis	Tatiana Pakhomova	Case Presentation
17:38	235	Diagnostic dilemma in tubercular choroiditis presenting as exudative retinal detachment	Aazambir Brar	Case Presentation
17:41		DISCUSSION		
17:53	345	When fire meets steel - VR surgery in uveitic eyes	Sangeet Mittal	Course
		Firefighting 101: What Makes Uveitic VR Unique?	Gagan Bhatia	

		Through Smoke and Ash: Diagnostic Vitrectomy & Managing the Soft Eye	Mohit Dogra	
		Extinguishing the Blaze: Surgical Tactics in Endophthalmitis	Neeraj Sanduja	
		Playing with Fire: Lessons Learned in Retinal Vasculitis	Vaibhav Sethi	
		Fighting the Infernal: VR Challenges in ARN & Toxocara	Jayant Guha	
		Taming the Fire: Surgical Hacks and Workarounds in Uveitis	Sangeet Mittal	
		Discussion		
18:38		END OF DAY TWO		
Day 3 - Sunday, 8 November				
08:00	187	RETINAL DETACHMENT RELOADED - BUCKLE TO BEYOND	Shishir Verghese	Courses
		UVEITIS / ENDOPHTHALMITIS / MEDICAL RETINA / AMD / CSCR: Short communications Moderators: Jayant Guha, Ahmed El Shafei		
08:45	24	A relentless tale of tubercular granuloma	Pooja Sinha	Case Presentation
08:48	352	Idiopathic choroidal neovascular membrane in long-standing hypotony maculopathy secondary to peripheral ulcerative keratitis: a rare case report	Rhea Wason	Short communication / Free Paper
08:51	363	Real-world outcomes of the fluocinolone acetonide implant in diabetic macular edema and non-infectious uveitis: a retrospective analysis	Francisca Maia	Short communication / Free Paper
08:54	3	Concert laser-induced submacular hemorrhage unmasking polypoidal choroidal vasculopathy in a young female: multimodal diagnosis and combined surgical management	Yaren Guven	Case Presentation
08:57	11	Varicella zooster retinitis	Sudhir Baburdikar	Case Presentation
09:00	183	Seven-year longitudinal multimodal imaging follow-up of acute zonal occult outer retinopathy presenting as pseudo-bitemporal hemianopia	Tejaswita Verma	Case Presentation
09:03		DISCUSSION		
09:15	485	Coexistence of the prominent middle limiting membrane sign and paracentral acute middle maculopathy in central retinal artery occlusion: a case report	Nahide Erkaya	Case Presentation
09:18	521	Severe oculocardiac reflex during intravitreal injection	Alara Ekinci	Case Presentation
09:21	6	Assessment of glycemic control among patients undergoing surgical treatment for advanced diabetic retinopathy in saudi arabia	Ahmed Algethami	Short communication / Free Paper
09:24	162	Less bleeding, better dissection: the role of preoperative IVI in diabetic TRD	Ahmed El Shafei	Short communication / Free Paper
09:27	149	Investigation of chemerin and VEGF levels in aqueous humor and serum in diabetic retinopathy: associations with diabetic nephropathy	Murat Sahin Suleyman	Short communication / Free Paper
09:30		DISCUSSION		
09:42	508	OCT Secrets in retina: biomarkers, pitfalls and treatment decisions	Radina Kirkova	Course
10:27		COFFE BREAK		
10:47	314	Surgical temptations and when to resist them: lessons from the retina	Banu Turgut Ozturk	Course

		MEDICAL RETINA: Short Communications Moderators: Ihab Saad Othman, Marco Anastasi		
11:32	248	Cardiovascular and cerebrovascular safety signals of intravitreal anti-VEGF therapy: a real-world pharmacovigilance analysis of the faers database	Asma Benslama	Short communication / Free Paper
11:35	703	Comparison of systemic risk factors for HRVO with BRVO and CRVO	Martina Trentin	Short communication / Free Paper
11:38	63	Shades of blue: partial ocular albinism in waardenburg syndrome	Sangeet Mittal	Short communication / Free Paper
11:41	181	Seven-year longitudinal multimodal imaging follow-up of acute zonal occult outer retinopathy presenting as pseudo-bitemporal hemianopia	Tejaswita Verma	Short communication / Free Paper
11:44	213	Adult myopic retinopathy of prematurity-like presentation with inflammation and spontaneous retinal reattachment: a diagnostic challenge	Bhumika Rath	Short communication / Free Paper
11:47		DISCUSSION		
11:57	323	Timely brain storming and steroid introduction saving vision	Anum Haneef	Short communication / Free Paper
12:00	532	Real-world experience with aflibercept 8 mg (eylea 8 mg) in retinal vascular diseases: initial outcomes from the view hospital, doha, qatar	Hussein Almuhtaseb	Short communication / Free Paper
12:03	55	Angio-OCT as a novel biomarker of choriocapillaris damage in systemic sclerosis	Maria Carmela Saturno	Short communication / Free Paper
12:06	545	An assessment of psychosocial changes in vitrectomy patients during the preoperative and postoperative periods	Melike Balikoglu-Yilmaz	Oral presentation
12:11	571	Retinal hemangioblastoma: different presentations, different lines of management	Ihab Saad Othman	Oral presentation
12:16		DISCUSSION		
12:26	522	Retina education in digital era: social media and virtual platforms	Claudio Iovino	Course
13:11		LUNCH		
		SURGICAL TIPS & TRICKS (MY WAY) & COMPLICATIONS - PART II Moderators: Mohammad Alhazzazi, Samir El Baha		
14:01	86	Evolution of surgical independence and complication control during early vitrectomy fellowship training	Shravanthi Nagaraj	Oral Presentation
14:06	203	Navigating complex macular maze- with 41-gauge compass	Giriraj Vibhute	Oral Presentation
14:11	333	Peripheral micro-PVDS to facilitate outside-in dissection in diabetic tractional retinal detachment surgery	Srishti Ramamurthy	Oral Presentation
14:16	288	Autologous tenon plug for optic disc pit plugging in optic disc pit maculopathy: a novel surgical approach	Mayank Verma	Short communication / Free Paper
14:19		DISCUSSION		
14:27		COFFEE BREAK		
14:47	41	Cartridge-assisted removal of intraocular foreign body through anterior chamber: a minimally traumatic technique	Levent Karabas	Case Presentation
14:50	441	Vitrectomy for idiopathic thrombocytopenic purpura masquerading as leukemic retinopathy in a young diabetic: a case report	Maninee Purohit	Case Presentation
14:53	62	Regression of myelinated retinal nerve fibers following pars plana vitrectomy: a case series	Sangeet Mittal	Case Presentation

14:56	54	Rethinking dropped nucleus surgery: avoiding the fragmatome	Bhumika Rath	Case Presentation
14:59		DISCUSSION		
15:07	484	My longest retina day!	Kumar Boral Subhendu	Course
15:52		END OF DAY THREE
